

DuPont Waynesboro Natural Resource Damage Assessment and Restoration

IMPACTED WATERSHED

Natural Resource Damage Assessment and Restoration (NRDAR)

- Consent Decree approved July 28, 2017
 - Restoration Plan/Environmental Assessment
- All projects are reviewed, evaluated, and selected by Trustees. Criteria include:
 - Connection to injured resources
 - Technical and regulatory feasibility
 - Cost effective to plan, design, permit and implement the alternative, or leverage potential
 - Likelihood of measureable project success and sustainability
 - Multiple natural resources or ecological service benefits are optimally achieved

Preferred Restoration Alternative

- Land protection, property acquisition, and recreational and wildlife enhancements \$19.5 million
- Projects to improve water quality and fish habitat \$10 million
- Mussel propagation and restoration \$4 million
- Neotropical migratory songbird full life cycle restoration \$2.5 million
- Recreational fishing improvement projects – access points and Front Royal Hatchery renovations \$2.5 million + Front Royal Hatchery renovations

Preferred Restoration Alternative
